

ANCHOR BLUE

Multi Purpose Detergent/Truck Wash

Anchor Blue Multi Purpose Detergent/Truck Wash is highly active high foaming detergent specifically formulated for all transport cleaning applications including trucks, buses, cars, boats and trains. Anchor Blue is designed to be used as a multipurpose cleaner for use on most types of materials and surfaces encountered in transport and manufacturing establishments. Anchor Blue has Lanoseal's Liquid Lanolin formulated into it which will preserve, reduce corrosion and enhance all surfaces.

Performance features of Anchor Blue Multi Purpose Detergent/Truck Wash:

- Excellent cleaning performance
- Neutral pH
- Contains Lanoseal's liquid Lanolin corrosion inhibitors and therefore will not promote rust
- Safe to be using indoors and in confined areas.

Anchor Blue Multi Purpose Detergent/Truck Wash can be applied manually or dispensed through foamers, pressure cleaners and automated dispensing equipment. The following dilution rates for manual application are a guide and depend upon local situations and the task at hand.
